

# *Indiana Archaeology Month*

## *September 2011*

### *Calendar of Events*

The **Division of Historic Preservation and Archaeology** (DHPA), part of the Indiana Department of Natural Resources, is proud to have coordinated Indiana Archaeology Month, the sixteenth annual statewide archaeology event.

Again this year, many exciting events will be available for the public to attend. We hope that more and more people will gain a greater appreciation for the science of archaeology and what it may teach us about the past. We encourage you to call either the contact person listed for the event or the Division (317/232-1646) to obtain information regarding the various activities.

*A note for those bringing archaeological artifacts for identification to events -- monetary values will not be provided. The value of artifacts lies in what they can tell us about the past and the people who made them.*

*A list of those who have made Indiana Archaeology Month 2011 events possible is provided at the end of this document. We appreciate all that the event hosts, and participants, have done to make this another successful Indiana Archaeology Month.*

*You might want to double-check with event hosts regarding whether their location is on Central Time or not. When it was provided, we have included the Central Time information with the relevant events. To access a helpful map, please feel free to go to <http://www.state.in.us/core/files/Timezonespring.pdf>.*

*A section towards the end of the document divides the state into segments. This will allow for a quick search of events held in a certain region of the state.*

**Note:** Additional events may be added to the calendar after the date at the end of this document. Feel free to contact Amy Johnson, [ajohnson@dnr.IN.gov](mailto:ajohnson@dnr.IN.gov), regarding any events which may be added later than the date this document was compiled.

Take our survey at [www.IN.gov/dnr/historic](http://www.IN.gov/dnr/historic) to help the DHPA revise *Indiana's Cultural Resources Management Plan!* Feel free to go to <http://www.in.gov/dnr/historic/files/dnrmgmtplan.pdf> if you are not familiar with the current plan. Please remember that the survey will be available only through the end of September, 2011.
