Regulation of Processes, Systems or Practices with the Potential to Result in Water Quality Degradation				
WATER QUALITY STANDARDS: Specific standards indicating water quality are determined through rule adoption by the Water Pollution Control Board.	IC 13-18-3 IC 13-18-4  327 IAC 2-1.5	All waters in the Great Lakes basin must at a minimum be free from substances, materials, floating debris, oil, or scum attributable to municipal, industrial, agricultural, and other land use practices, or other discharges that: (1) will settle to form objectionable deposits; (2) are in amounts to be unsightly; (3) produce color, visible oil sheen, odor, or other conditions to the degree of being a nuisance; (4) are in concentration that will contribute to the growth of algae or aquatic plants to a degree of being a nuisance; and, (5) are in amounts that are toxic to or may kill aquatic life, other animals, or humans.	IDEM, Office of Water Management 100 N. Senate Ave. PO Box 6015 Indianapolis, IN 46204 (317) 233-2472 1-800-451-6027	IC 13-18-3 IC 13-18-4  327 IAC 2-1.5

<p>WASTEWATER PERMIT PROGRAM (NPDES PERMIT PROGRAM):<sup>1</sup> Regulates point source discharges into waters of the United States. Includes permitting of activities associated with publicly owned treatment works, industrial wastewater treatment facilities, concentrated animal feeding and aquaculture operations, combined sewer overflows, and industrial wastewater pretreatment facilities. General permits are administered for discharges involved in other industrial processes such as cooling water, petroleum products, hydrostatic testing of commercial pipelines, sand and gravel operations, stormwater associated with construction activities, stormwater associated with industrial activities.</p>	<p>IC 13-15                      IC 13-18-19                       327 IAC 3                      327 IAC 4                      327 IAC 5                      327 IAC 8                      327 IAC 15                       CSO STRATEGY<sup>2</sup></p>	<p>Effluent limitations are permit conditions established by the IDEM on quantities, discharge rates, and concentrations of pollutants in water that is discharged, or will be discharged, from a point source into the “waters of the state” of Indiana. They represent the minimum effluent quality or quantity which must be achieved prior to discharge of the treated wastewater into the waters of the state. The NPDES permits issued by IDEM contain effluent limits which can be water quality-based or technology-based. The effluent limits in each individual NPDES permit are based on the most stringent of these two approaches</p>	<p>IDEM, Office of Water Management                      100 N. Senate Ave.                      Box 6015                      Indianapolis, IN 46206                      (317) 232-8760                      1-800-451-6027</p>	<p>IC 13-15                      IC 13-18-19                       327 IAC 3                      327 IAC 4                      327 IAC 5                      327 IAC 8                      327 IAC 15</p>
<p>WASTEWATER OPERATOR ASSISTANCE TRAINING: Includes technical assistance, certification, and continuing education programs for wastewater treatment operators.</p>	<p>IC 13-18-11</p>	<p>IDEM issues certificates attesting to the competency of operators. A certificate must indicate the classification of works, plant, or system that the operator is qualified to supervise. Each operator shall</p>	<p>IDEM, Office of Water Management                      100 N. WASTEWATER REVOLVING LOAN PROGRAM: Offers low-interest loans to qualified communities for planning, design, and construction of publicly owned wastewater treatment facilities.	IC 13-18-13  327 IAC 13	IDEM uses a priority ranking system to recommend loans or other financial assistance from the fund. IDEM shall develop the priority ranking system to achieve optimum water quality consistent with the water quality goals of the State and the federal Clean Water Act.	IDEM, Office of Water Management 100 N. Senate Ave. Box 6015 Indianapolis, IN 46206 (317) 232-8655 1-800-451-6027	Not applicable.
BATHING BEACH MONITORING: Local county health departments collect and analyze water from bathing beaches weekly for <i>E. coli</i> and fecal coliform during the swimming season. Swimming in the water at bathing beaches can be restricted when water quality does not meet standards set by rule.  Indiana also participates in the Beaches Environmental Assessment and Coastal Act of 2000 (BEACH).	327 IAC 2-1.5-8(e)  17 <sup>TH</sup> EDITION OF STANDARD METHODS FOR THE EXAMINATION OF WATER AND WASTEWATER  AMBIENT WATER QUALITY CRITERIA FOR BACTERIA 1986 (EPA 440/5-84-002)	Full body contact may be restricted if water contains more than 235 <i>E. coli</i> per 100 milliliters of water.  BEACH Act of 2000 requires states to establish water quality criteria for coastal recreational waters for specific pathogens and pathogen indicators. In addition, states are required to establish a monitoring and notification program for coastal recreational waters based on standards developed by the EPA.	Indiana State Department of Health 2 North Meridian St. Indianapolis, IN 46204 (317) 233-1325  IDEM, Office of Water Management 100 North Senate Ave. Box 6015 Indianapolis, IN 46206 (317) 233-6801	Not applicable.
CLEAN VESSEL ACT PUMPOUT PROGRAM: Funding available under the federal Clean Vessel Act to public and	33 U.S.C. 1322	Funds may be used for the construction or renovation of boat sewage pumpout facilities.	IDEM, Office of Water Management 100 N. Senate Ave.	Not applicable.

		<p>In addition to funds provided to a district for purposes stated above, the Division of Soil Conservation shall pay to the district \$1 for every \$1 the district receives from a political subdivision. The State is not obligated to match more than \$10,000. In order to receive funding under this section, before April 15 of each year a district must certify to the Division of Soil Conservation the amount of money the district received from all political subdivisions during the year beginning April 1 of the previous year. The Division of Soil Conservation shall make distributions under this section not later than July 15 of each year. A district must spend money received under this section for the purposes of the district.</p>		
<p>CLASSIFIED FOREST PROGRAM:                      Voluntary program for the protection of forested land. Property tax limited to \$1 per acre of classified land.</p>	<p>IC 6-1.1-6-14 and 19                      IC 6-1.1-6-2 and 3</p>	<p>(1) A parcel of land may not be classified as native forest land or a forest plantation unless it contains at least ten acres, but the parcel may be of any shape</p>	<p>DNR, Division of Forestry                      402 W. Washington St.,                      Rm. W 296                      Indianapolis, IN 46204</p>	<p>Not applicable.</p>

		<p>whatsoever. This section does not apply to land classified before July 26, 1967. (2) A parcel of land may not be classified as native forest land or as a forest plantation if it is grazed by a domestic animal. However, this section does not apply to domestic fowl if they do not have a detrimental effect on timber production. (3) A parcel of land may not be classified as native forest land or as a forest plantation if it contains an open area. However, this section does not apply if the open area is authorized by a special permit issued by the state forester.</p> <p>The following types of trees are not considered timber producing trees: dogwoods (Cornus); water-beech (Carpinus); ironwood (Ostrya); red bud (Cercis); sassafras; persimmon; pawpaw; black haw; willows (Salix); pomaceous trees; and Christmas trees which are grown for commercial purposes.</p>	(317) 232-4105

HOOSIER RIVERWATCH: Increases public awareness of water quality issues by training volunteers to care for and monitor the health of Indiana's streams and rivers.			DNR, Division of Soil Conservation 402 W. Washington St., Rm. W265 Indianapolis, IN 46204 (317) 233-3870	Not applicable.
VOLUNTEER WATER QUALITY MONITORING PROGRAM: Focuses on volunteer lake monitoring and volunteer wetlands monitoring and education. The goals of the program include education about lake and wetland ecology, in addition to providing water quality data to supplement IDEM's lake and wetlands assessment programs. The program is coordinated with DNR, Indiana University, and the Sierra Club.			IDEM, Office of Water Management 100 N. Senate Ave. Box 6015 Indianapolis, IN 46206 (317) 232-8476 1-800-451-6027	Not applicable.
