

Example: Class II Public Notice – New Permit

PUBLIC NOTICE

Applicant name, Applicant address, city, state zipcode has submitted to the Division of Oil and Gas a request to *enter type of activity (see below for possibilities)* to a Class II *Enhanced Recovery or Saltwater Disposal (select one)* well to be used for the injection of produced brine. This well is located in Section *XX*, Twp. *XX*, Rng. *XX* in *name of county* County, Indiana.

The subject well – *well name and number*, permit #*XXXXX* - will be injecting fluid into the *formation name* sandstone (*or limestone*) within the depth interval of *XXXX* feet to *XXXX* feet and into the *formation name* sandstone (*or limestone*) within the depth interval of *XXXX* feet to *XXXX* feet at a maximum injection pressure not to exceed *XXXX* pounds per square inch. The maximum injection rate for this well will not exceed *XXXX* barrels per day.

Written comments and objections, a request for a copy of this application or a request for an informal hearing concerning this application must be submitted to the Division of Oil and Gas within 15 days from the publication date of this notice and should be mailed to:

Division of Oil and Gas
Department of Natural Resources
Attn: Technical Section
402 W. Washington St., Room 293
Indianapolis, IN 46204-2748

HELPFUL HINTS:

Information items in red italics should be specific for the permit that is being modified.

Types of permit activities:

- Convert an existing well
- Drill and construct a new

Enter either: Enhanced Recovery OR Saltwater Disposal. Do not use both.

If this is a new well, you will not have a permit number so omit that data from the notice.

Use the appropriate lithology for the injection zone: sandstone, limestone or dolomite.

If there are more than one injection depth interval, list them in order from the most shallow to the deepest.
