

Mitchell E. Daniels, Jr.  
Governor

Gregory N. Larkin, M.D., F.A.A.F.P.  
State Health Commissioner

**DATE:** July 25, 2011  
**TO:** All Local Health Departments  
Attn: Chief Food Inspection Officer  
**FROM:**   
A. Scott Gilliam, MBA, CP-FS  
Director, Food Protection Program  
**SUBJECT:** Agromod Produce, Inc. Recall

**SUGGESTED**

**ACTION:** Unclassified Recall; All Papayas because they have the potential to be contaminated with *Salmonella*; Recommend notification of affected stores via phone, fax or e-mail.

From the information provided by FDA, the products being recalled may have been distributed in the State of Indiana. Fresh, Whole Papayas were distributed nationwide and to Canada through retail stores and wholesalers. Detail information is not available at this time. In addition, if any recalled products are found, please notify this office at 317-233-7360.

**Recall -- Firm Press Release**

FDA posts press releases and other notices of recalls and market withdrawals from the firms involved as a service to consumers, the media, and other interested parties. FDA does not endorse either the product or the company.

**Agromod Produce, Inc. Recalls Papaya Because Of Possible Health Risk**

**Contact:**  
Consumer:  
(800) 385-7658

**FOR IMMEDIATE RELEASE - July 23, 2011 - Agromod Produce, Inc. of McAllen, Texas** is recalling all **Papayas**, because they have the potential to be contaminated with *Salmonella*, an organism which can

cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

**Fresh, Whole Papayas** were distributed nationwide and to Canada through retail stores and wholesalers.

Agromod is recalling **all** Blondie, Yaya, Mañanita, and Tastylicious Brand papayas sold prior to **July 23, 2011**. Each Blondie Brand papaya can be identified by a blue and orange sticker label with green and white lettering on the fruit that states Blondie 4395 Mexico. The Yaya Brand Papayas can be identified by a yellow, red, orange, and green label with white, green and red lettering that reads Yaya Premium Papayas Yaya PLU-4395 Mexico. Each Mañanita Brand Papaya can be identified by a green, yellow and red sticker label that states Mexico Mañanita 4395. The Tastylicious Brand Papayas can be identified by a white and blue sticker with red and white lettering that states 4395 Tastylicious MEXICO.

The papayas were imported from Mexico and are possibly linked to 97 reported cases of *Salmonella* Agona, including 10 hospitalizations, in 23 states throughout the United States. Recent sampling by the FDA found the outbreak strain in two papaya samples collected at Agromod Produce, Inc. location in McAllen, TX and at the U.S. border destined for Agromod Produce, Inc. The shipments that tested positive with the outbreak strain were not distributed in the U.S. Distribution of the product has been suspended while FDA and the company continue their investigation as to the source of the problem.

This recall is being made with the knowledge of the US Food and Drug Administration.

Consumers who have purchased the Blondie, Yaya, Mañanita, and Tastylicious Brand Papayas are urged to return it to the place of purchase. Consumers with questions may contact the company at (800) 385-7658, Monday – Friday 10:00 am – 5:30 pm CST.
