The problem was discovered by the company during a routine label audit, and may have occurred because wheat and soy were not listed as ingredient components in the marinade seasoning blend used in the product. FSIS and the company have received no reports of adverse reactions due to consumption of these products. Anyone concerned about a reaction should contact a healthcare provider.

FSIS routinely conducts recall effectiveness checks (including at restaurants) to verify recalling firms notify their customers of the recall and to ensure that steps are taken to make certain that the product is no longer available to consumers.

Consumers with questions about the recall should contact the company's President, Jerry Pasquale at 419-666-0702. Media with questions about the recall should contact Charley Wilson at 281-584-2423.
