## **Recovery Needs:**

The 2008 disasters in Indiana have been among the worst in our state's history. 82 of Indiana's 92 counties were declared as Presidential disaster areas between the three disaster periods (DR-1740, DR-1766 and DR-1795). DR-1766, the result of severe flooding in late May and early June, was clearly the most substantial with 44 counties declared as Presidential disaster areas. FEMA estimates that total IA and PA for this disaster will exceed \$350 million. FEMA and the SBA received 17,844 applications for IA during DR-1766, resulting in over \$127 million in assistance. The PA process is now in full swing with FEMA having 471 applicants from local and state government and an estimated 2,092 project worksheets. Currently 26 million dollars have been obligated to local governments, and PA total estimates exceed \$150 million. While the estimated FEMA assistance is substantial, it will not cover the estimated recovery needs in the areas of economic and workforce development, infrastructure, and housing.

The following summarizes the key unmet needs in each of these areas:

Economic and Workforce Development The largest economic impact to Indiana will be in the area of agriculture where early estimates indicate that crop losses will exceed \$300 million and land rehabilitation losses for activities like debris and sediment removal, levee repair and soil erosion repair will exceed \$200 million. Impact to other Indiana businesses is likely to exceed \$400 million with most of the damage occurring in the five most effected counties of Bartholomew, Johnson, Vigo, Morgan and Owen. The most substantial areas of damage occurred in Columbus, Indiana, where the Columbus Regional Hospital was completely immobilized and had over \$211 million in damages of which less that \$75 million will be covered by FEMA. Additionally, the city's largest employer reported damages in excess of \$200 million none of which qualified for assistance.

Infrastructure Damage to Indiana's public infrastructure will likely exceed \$325 million and it is estimated that FEMA-PA will cover about half, or \$158 million of this expense. The remainder does not qualify, is covered by another Federal program, or represents the state/local match. The chart below depicts the financial assistance the State of Indiana has received. However, the costs that go beyond what is covered below have been identified as key areas of remaining need. FEMA-IA Applicants FEMA-IA Assistance (\$000) SBA Loans (\$000) FEMA-PA Assistance (\$000) Total Financial Assistance (\$000) June Flooding & Tornados DR-1766 17,840 54,241 71,711 158,502 284,454. About half of Indiana's PA expense comes from the extensive damages to Columbus Regional Hospital, a major hospital servicing a large portion of Southeastern Indiana. The hospital suffered over \$211 million in damage of which about half will qualify for FEMA-PA. One of the state's top priorities has been to help CRH recover from the catastrophic losses experienced in June of 2008, and a portion of PA-match funding would be for this effort. The remaining PA expenses result from damage to a mixture of public infrastructure such as damaged roads, bridges, dams and levees. Of note, Indiana's local FEMA-PA match will likely exceed \$40 million. Indiana will likely not achieve an automatic reduction in the FEMA match rate from 25% to 10% as our statewide per capita loss will be below the \$122 threshold. However, our hardest-hit counties have more than exceeded this threshold and thus this match will be a burden to them. The disaster CDBG funds will be key in helping reduce this local burden.

Housing Indiana has over 17,000 families who suffered some type of damage to their dwelling. Housing is a key challenge for the state. FEMA-IA has provided substantial assistance; however, additional help will be required.

## **Overall Progress Narrative:**

Both OCRA and IHCDA have closed out all projects/activities associated with the CDBG-DR1 award. All compliance flags have been cleared and all reporting updated in coordination with the HUD TA provider. All unexpended grant funds have been de-obligated in DRGR.

OCRA and IHCDA are currently exploring potential uses and reporting requirements for the DR-1 program income currently on hand and for any future PI generated by activities associated with this award. OCRA and IHCDA have received guidance from HUD on the steps necessary to convert the PI on hand into IDIS in preparation for DR-1 closeout.

Once both parties have agreed on terms, a new MOU will be executed in order to move ahead with the official closeout.

# **Project Summary**
